Simulators for Health Care Education

---

For Immediate Release

## **Gaumard teams with S.T.A.B.L.E.**

**Miami, Florida - November 1, 2008** – Gaumard Scientific and S.T.A.B.L.E. announce an initiative to provide a comprehensive simulation program for neonatal stabilization.

For more than 60 years Gaumard Scientific has developed healthcare training tools and simulators in a family owned and operated business. We are pleased to announce a partnership with The S.T.A.B.L.E. Program that will bring the finest in neonatal stabilization education into the dynamic healthcare simulation world. S.T.A.B.L.E. (Sugar, Temperature, Airway, Blood pressure, Lab work, Emotional support) provides general guidelines for the assessment and stabilization of sick infants in the post-resuscitation / pre-transport stabilization period.

Gaumard and S.T.A.B.L.E. share a commitment to improving education through intensive simulation training. Our companies look forward to a world of healthy neonates.
